"A pleasant smile has a positive impact on other people. It indicates good health, well-being, energy and attractiveness and it looks inviting. A healthy smile is the key to success."

DENT AESTHETIC

made in germany

„**DENT AESTHETIC** is one of the few members of **PREMIUM CLINICS & PRACTICES** in Germany and Switzerland – the most exclusive hallmark of quality in German dentistry.

Dentistry - Made in Germany - is not just a geographical designation but also a highly respected seal and quality indicator.“

Dear patient,

Welcome to **DENT AESTHETIC**.

Good health, absence of pain, gentle method of treatment, a feel-good experience in my practice and due consideration of my patients' requests are always top priority in my practice philosophy.

Nowadays it is possible with state-of-the-art dentistry to achieve more than just healthy teeth.

As a specialist in aesthetic reconstruction and implant dentistry I can help you in my practice to acquire a healthy, beaming smile that will give you a positive charisma as a result of aesthetic, natural-looking teeth.

Instead of repair dentistry I advocate dentistry that harmonises sustained tooth preservation with function and aesthetics.

Owing to many years of practical experience, starting with dental technology, many further training sessions and specialisations in the field of implant dentistry and aesthetic reconstruction at home and abroad, you will

receive top-class professional treatment in my practice, **DENT AESTHETIC**.

DENT AESTHETIC is one of the few members of **PREMIUM CLINICS & PRACTICES** in Germany and Switzerland – the most exclusive hallmark of quality in German dentistry. *Dentistry - Made in Germany - is not just a geographical designation but also a highly respected seal and quality indicator.*

Please do not hesitate to contact me for extensive advice.

I look forward to hearing from you.

Yours sincerely

*Herrat Schürrock,
M.Sc., M.Sc.*

DENT AESTHETIC

Herrat Schönrock,
M.Sc., M.Sc.

Dentist

Master of Science in Implant Dentistry

**Master of Science in Aesthetic -
Reconstructive Dentistry**

"As a specialist in implant dentistry, aesthetic reconstruction, anti-aging dentistry and dental sleep medicine it is my endeavour to give you top-class professional treatment whilst taking a highly sensitive approach.

In my practice we offer state-of-the-art dentistry, using the latest technology and top-quality materials, and our dental restorations come from selected certified laboratories in Germany. Our philosophy is: high-standard, sustainable concepts and uncompromising focus on quality – Made in Germany."

PREMIUM CLINICS & PRACTICES

Professional experts for patients seeking top-class services

The philosophy of **PREMIUM CLINICS & PRACTICES** is distinctly different from commonplace health forums, medical rating portals and conventional directories of doctors:

The priority selection and recommendation of the best doctors in a professional discipline is made by leading medical specialists themselves. Nobody knows better than these eminent authorities who the most successful specialists are, who reliably masters even the most sophisticated methods of treatment and surgical procedures, and who enjoys an excellent reputation amongst colleagues.

You can rest assured that the entire sequence of treatment, from the very first interview in complete confidence to dedicated aftercare, takes place in accordance with the best quality standards.

We treat patients from Germany, Austria, Denmark, the Netherlands and the UK. Due care, skilled craftsmanship, a sensitive approach to aesthetic modelling, individualised patient support and patient service are all characteristic of the **DENT AESTHETIC** concept.

"Highly satisfied!"

I came over specially from the UK because as an anxious patient I was unable to get an appointment there for treatment under anaesthetic. I don't regret it ... I have been treated in a very friendly and affectionate manner and am now over the moon with the outcome. Never have I experienced such a nice doctor and team and I would come back any time! Thank you so much! “

Reference from the UK

After studying dentistry in Hamburg, Dentist Herrat Schönrock, M.Sc., M.Sc., was one of the first to complete two postgraduate master courses in implant dentistry and aesthetic-reconstructive dentistry so she has years of dental expertise. At present she is completing her third Master of Science degree, in periodontology.

In addition, since the beginning of her professional work she has completed numerous courses of further training and advanced training at various German and international institutes and clinics, and with **DENT AESTHETIC** she is one of the few select members of the exclusive group of **PREMIUM CLINICS & PRACTICES** in Germany and Switzerland.

On an annual basis she attends international and national symposiums, congresses and further training courses provided by well-known imminent authorities of dentistry and medicine, for example in New York and Salt Lake City (USA), Dubai (UAE), Istanbul (Turkey), Bilbao, Fuerteventura and Vitoria (Spain), Cannes and Nice (France), Monaco, Sankt

Anton and Krems (Austria), Italy, but also in Hamburg, Düsseldorf, Munich, Tegernsee and Berlin.

She is a continuous member of various international and national societies for aesthetic dentistry, aesthetic and reconstructive dentistry, implant dentistry and dental sleep medicine.

„Dentist Herrat Schönrock, M.Sc., M.Sc., is a certified dentist for modern state-of-the-art aesthetic & aesthetic-reconstructive dentistry, implant dentistry and periodontology and she is also a certified dentist for dental sleep medicine.“

In addition, she possesses years of experience in 3D implant dentistry and planning using digital volume tomography (DVT).“

Dr. med. dent.
Malte Schönrock

Dentist

„As a specialised, aesthetics-oriented practice we strictly focus on achieving a natural, aesthetic and individual overall appearance. Thorough analysis of the initial situation using digital photography to obtain a top-quality overall outcome can be taken for granted.

A pleasant smile has a positive impact on other people. It indicates good health, well-being, energy and attractiveness and it looks inviting. A healthy smile is the key to success.“

DENT AESTHETIC

In designing the entire practice we felt it was important to ensure that the premises bear no similarity with a conventional dental practice. As a result, we have created a harmonious, appealing atmosphere where our guests feel comfortable and which anxious patients in particular appreciate very much.

The generously scheduled treatment times allow you stress-free treatment and an enjoyable visit to our practice.

Beauty and aesthetics – internal and external – are a basic philosophy of **DENT AESTHETIC**. No matter whether it is individualised overall concepts, elaborate aesthetic or surgical restoration work or wafer-thin veneers – our strive for perfection and aesthetic appearance is reflected by every final outcome. Ultimately, it is our patients who do our most effective advertising.

Dentist Herrat Schönrock, M.Sc., M.Sc., specialises in aesthetic and surgical treatments and overall dental concepts that take the particular type of person into account. With new, innovative methods and top-quality materials it is possible to achieve natural, impressive results.

Thanks to modern materials, elegant and innovative methods of treatment and close collaboration with excellent dental technicians we can offer you truly fascinating results in aesthetic dentistry. Function and aesthetics always go hand in hand.

3D planning with digital volume tomography (DVT)

We are one of the few practices to be able to plan elaborate treatment with even greater precision, by using digital volume tomography (DVT).

In this 3D X-ray examination the bone is measured with precision in all three dimensions and important anatomical structures are displayed accurately so that they remain protected and the correct size of implant and surgical procedure can be determined.

DENT AESTHETIC is located in Kellinghusen in the heart of Schleswig-Holstein, between the North Sea and the Baltic, scarcely one hour's drive to the north-west of the German metropolis and Hanseatic City of Hamburg. This multi-faceted region of northern Germany, surrounded by sea, has plenty to offer, and it is not without good reason that it is referred to as the "Gate to the World". The centrepiece of Hamburg and northern Germany is the Elbphilharmonie with its numerous concerts and events featuring well-known international artists.

Patient Service

We will be glad to help you organise your trip and stay here and we look forward to assisting you in all matters - in addition to providing top-quality treatment and personalised care by our team.
